RAIL Asia established as Southeast Asia's most important Rail & Metro Event

With the full support of the Ministry of Transport and hosted by the State Railway of Thailand RAIL Asia expo and conference will stage its 9th edition in 2023, highlighting the vast expansions in the region's rail connectivity and Thailand's high-speed rail network linking the Eastern Economic Corridor to the rest of Asia. RAIL Asia's importance and strength in the region, following its successful edition in Bangkok during 2020, has established the exhibition and conference as the industry's most important rail and metro event.

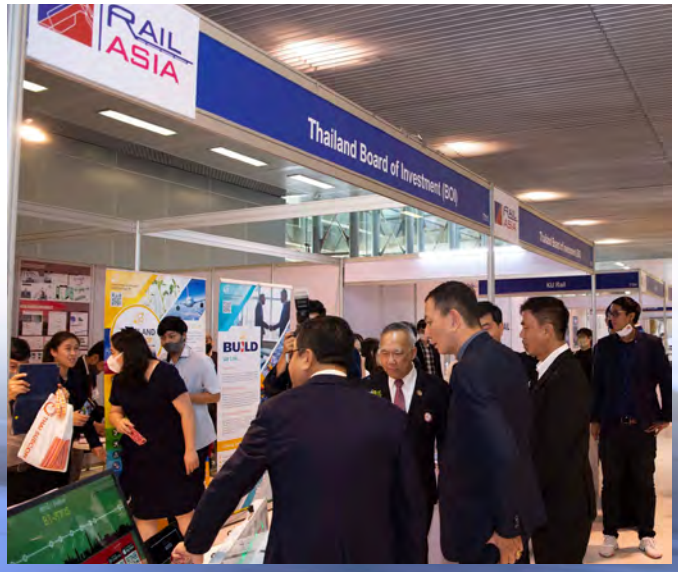

RAIL Asia 2020 attracted a diverse attendance of industry with rail and metro operators making up 13% of the visitors, government 5%, contractors 15%, consultants 17%, professional and academic organsations 9%, suppliers 24% and investors 3%. Visitors to the event represented projects and budgets reported to be worth over USD 2.426 billion in Thailand and the region.

"The event brings the industry together across Asia-Pacific, it is an excellent opportunity to exchange information, to meet new partners and bring all the key innovation trends into one place, it's a great pleasure for us to be here."

Dr. Katrin Luger, Head of Sales for
Bombardier Transportation Rail Control Systems in Asia-Pacific

"RAIL Asia is very important for us as it gives a very good chance to catch up with all our customers at the same time to introduce new products and to discuss new projects, it is also a very good chance to meet new potential customers from the rail authorities and operators. Overall it is very beneficial to us and we very much appreciate the exhibition"

Mr. Hannes Saurug,
Chief Commercial Officer, Voestalpine Railway Systems.

Main product areas of interest to the trade visitors to RAIL Asa 2020 were rolling stock and maintenance (35%), signalling (29%), civil engineering (24%), passenger experience for PIS, ticketing, station management (19%), information technology (18%) and other related sectors to include tunneling, OCS, trackwork, multi-modal integration, investment, tooling and consultancy (5%).

Reasons to Attend

"For Talgo this is our first time at RAIL Asia Expo and we've met a lot of new clients from the industry to include top executives and government. This is the exhibition that gathers the people from the rail sector, not only from Thailand but from throughout Southeast Asia. Talgo will definitely exhibit again next year."

Mr. Surawut Sakulhiranrak, Managing Director,
Talgo Country Representative, SVS Worldwide

Thai Rail Industry at a Glance

- 3 high speed rail links to the north, south, the east-west corridor & southeast
- Bangkok to expand from 4 metro lines to 11 to become largest metro in ASEAN
- Bangkok as hub station of Pan-Asia Rail Network linking mainland Southeast Asia
- 887km of dual tracks on six routes - already under construction
- 4 new urban rail systems in Phuket, Chiangmai, Nakhon Ratchasima & Phitsanulok
- 1.435 gauge route to link Thailand to China via Laos and Singapore via Malaysia
- New 737km standard gauge route, linking Nong Khai to Mab Ta Phut
- 655km standard gauge route from Chiang to Ban Phachi – under construction
- Airport Rail Link extension linking Suvarnabhumi Airport to Don Muang Airport
